
VALENTINE

X

CONSULTING WITCH,
PSYCHIC ENTERTAINER &
EVENT PRODUCER

GLAMOUR MEETS GUIDANCE. LIGHTS, CARDS, ACTION!

Valentine X is a consulting witch and tarot reader with decades of experience blending ancestral wisdom, historical study, and punk-glam style. Raised among the mangroves and scrub pines of South Florida, Valentine draws on Caribbean, South American, and European American roots—bringing a uniquely grounded and expansive perspective to every reading.

Their approach blends esoteric systems with Carl Jung's works on archetypes and the collective unconscious to deliver insights that hit with precision and personality. Whether working a crowded club, a camera-ready interview, or a private consultation, Valentine brings clarity, wit, and grit.

By day, they're also a programmer and lifelong gamer, currently researching how modern internet mythologies—memes, fandoms, algorithms—are syncretizing with the old gods of tradition and symbol. They're available for events, media appearances, interviews, and VIP readings.

TALKING POINTS & INTERVIEW THEMES

Great for segment pitches, podcast episodes, or article framing:

- Tarot in 2025: What it is and isn't
- The intersection of tech and magic to create digital mythologies
- Are you a good witch or a bad witch? Morality in spell craft
- What queer, punk, and neurodivergent communities bring to modern mysticism
- From mangroves to metal: Blending personal heritage into magical practice
- Jungian archetypes in an online world
- Glamour as spiritual armor: Protecting yourself with style and cunning
- Behind the table: What actually happens when you read tarot at shows and on-air
- Creating immersive magical events on a community budget
- Consulting Witchcraft: Why Valentine doesn't just do predictions—they give revelations
